

# A DIRGE FOR THE BEAUTIFUL.

BY D. ELLER GOODMAN.

TUNE—"Oh bid me not weep him."  
Safely, peacefully,  
Lay her to rest;  
Place the turf lightly  
On her young breast;  
Gently, solemnly,  
Bend o'er the bed  
Where you have pillowed  
Thus early her head.

Plant a young willow  
Close by her grave;  
Let its long branches  
Soothingly wave;  
Twine a sweet rose-tree  
Over her tomb;  
Sprinkle fresh buds there—  
Beauty and bloom.

Let a bright fountain  
Limpid and clear,  
Murmur its music  
Smile through a tear—  
Scatter its diamonds  
Where the loved lies—  
Brilliant and starry,  
Like angel's eyes.

Then shall the bright birds  
On golden wings,  
Lingering ever,  
Murmuring sing;  
Then shall the soft breeze  
Pensively sigh—  
Bearing rich fragrance  
And melody by.

Lay the sod lightly  
Over her breast;  
Calm be her slumber,  
Peaceful her rest.  
Beautiful, lovely  
She was, but given  
A fair bud to earth,  
To blossom in Heaven.

## THE CONTRAST.

THREE WEEKS AFTER MARRIAGE.  
My dearest, are you going out?  
Indeed, 'tis very cold;  
Let me, sweet love, around your neck  
This handkerchief enfold.

You know how anxious for your health,  
My own dear George, am I;  
One loving kiss before we part—  
Good-bye, sweet chuck, good-bye!

THREE YEARS AFTER MARRIAGE.  
You're going out!—why don't you go?  
I cannot help the rain;  
You wouldn't grudge me mightily,  
To ne'er come back again!

Umbrella!—I don't know where 'tis.  
What'll you want next? I wonder!  
Don't pester me about your cold,  
Good gracious!—go to thunder!!

YOUNG IDOLERS.—A great deal is said, and justly, against allowing boys to idle away their time, and lounging about taverns, bowling alleys, &c. This loafing destroys more young men in cities than all other causes put together. But there is a darning, dissipating, lock-and-key class of girls called "young ladies," who are really in a worse way than these young fellows. While their fathers, plain, honest mechanics and laboring men, work early and late to make a hard living, and furnish them the wherewith to show off in public, and their mothers enslave themselves to keep them tidy and cook their meals, these interesting creatures are loitering about, terrified at nothing so much as the idea of earning the salt that seasons their food. You cannot induce them to do even a little plain sewing by offering them double pay, lest they should be known to be "working girls," and lose all chances for the fashionable world. Interesting creatures!—a dead weight on industrious parents—doomed to helpless dependence through life, or to be a dead weight to duped husbands.

A YANKEE CALCULATION.—"Well, it's curious how we do get over the ground. Why, the trees all look as if they were a dancin' jig to double quick time. I kin recollect ten or twelve years ago, that if I started from Boston on a Wednesday, I cud git in Filadelfy on the next Saturday, makin' just three days. Now I kin git from Boston to Filadelfy in one day, and I've been 'calculatin' that if the power of steam increases for the next ten years as it has been doin' for the last ten years, I'd be in Filadelfy just two days before I started from Boston!"

THE HAZEL EYE.—Poets often praise the Black, and the Blue eye of Woman—seldom the Hazel. Major Noah says "A woman with a hazel eye never elopes from her husband, never chafes scandal, never sacrifices her husband's comfort to her own, never finds fault, never talks too much or too little, always is an entertaining, intellectual, agreeable, and lovely creature."

PRETTY GOOD.—A lovely fair one recently wrote the following as a postscript to her backward lover:

"My heart to you is given,  
O do give yours to me;  
We'll lock them up together,  
And throw away the key."

A temperance lecturer in the South, a short time since, finished his discourse thus—"And finally, my hearers, why should any of you drink ardent spirits? My son Tom has got as good a cold as any in the country, at ten cents a quart."

Somebody calls a toper's nose a volcano, and the carbuncles, eruptions of the crater.

It is too true, that for one man who sincerely pities our misfortunes, there are thousands who sincerely hate our successes.

A lawyer once said to a countryman in a loose frock, who was undergoing an examination as a witness—"You in the loose frock, how much are you paid for lying?" "Less than you are for untruthfully, or you would be in a loose frock too."

It is proposed to include marriage among the games of chance, made penal under the gambling law.

## Clemens' Indian Tonic.

Infalible Cure for CHILLS, or AGUE and FEVER, and a sure remedy in BILIOUS REMITTENT, and other FEVERS.

THIS INFALLIBLE MEDICINE IS PURELY VEGETABLE.

THE unexampled success of this truly unrivaled Tonic, in curing in a few hours, where all other remedies have failed, and that too, in cases from six months to ten years standing—warrants the assertion, that if taking according to directions, it is infallible. A long list of certificates in proof of its infallibility might be adduced, but those upon the wrapper are deemed sufficient. Try it and be convinced that it is the most pleasant, most certain, and the very BEST remedy ever offered to the public for putting a speedy termination to the Chills or Ague and Fever.

FROM THE GREAT popularity of this medicine, and imitations, professing to be CLEMENS' INDIAN TONIC, are sold in every part of the country, and therefore, best should be known to be "working girls," and lose all chances for the fashionable world. Interesting creatures!—a dead weight on industrious parents—doomed to helpless dependence through life, or to be a dead weight to duped husbands.

NEAR NASHVILLE, August 15, 1848.  
Mr. Geo. W. House: Dear Sir—I had Chills and Fevers for twelve months; nine months of the time, without being able to check it, with all the aid I could procure from Physicians and the various Tonic Fever and Ague mixtures sold by the Drug stores. In April last I saw your advertisement of Clemens' Indian Tonic, as an infallible cure, I made no delay in calling upon you, and by using said Tonic, I found immediate relief, and a permanent cure. A friend of mine tried it about the same time, with the same happy result. Yours, respectfully,  
C. L. GLASSGOW.

From the Clarksville Chronicle, Oct. 21, 1848.  
Dr. T. D. Scott: Dear Sir—We have used Clemens' Indian Tonic in many cases of Ague and Fever, and we find it to be a most reliable remedy. We have heretofore used most of the remedies in use for Ague and Fever, and we unhesitatingly recommend Clemens' Tonic to the confidence of the public, from our personal experience and observation, as a safe, certain, and prompt cure for the Ague and Fever, in any form or stage of the disease.  
Yours, &c.  
P. PEACHER,  
JAMES I. PRITCHETT,  
LEVI COLEMAN.

Extract of a letter from the Rev. F. A. OWEN of Memphis, dated Nov. 16, 10, 1848.  
My Dear Sir—I have tried Clemens' Indian Tonic in six different cases, and find it efficacious in a very high degree. It arrested the chill in every instance, and as yet there has been no return. I cheerfully give this testimony, that others may be induced to use a remedy both safe and efficacious in curing chills and fever.  
Yours, very truly,  
F. A. OWEN.

NASHVILLE, June 3rd, 1844.  
Mr. Geo. W. House: Dear Sir—I shall make no apology in presenting the following remarkable case: A youth of about fifteen years old, living with me, had the Fever and Ague for ten years, without finding a cure; and I can assure you even means were used to that effect. In December last I tried a bottle of "CLEMENS' INDIAN TONIC," which arrested the disease at once, and am happy to state, he has not had a chill or an ague since. You should have no time in giving this Tonic an extensive circulation—it will prove a welcome friend and a great blessing to the afflicted.  
Yours, truly,  
JOHN H. DAVIS.

The above case is known to me, and is strictly true.

## Monthly Bulletin No. 9.

THE position of the Greenberg Company in its relation to the health of the community is now fully established; and the admirable qualities of Greenberg's Medicine are everywhere making the lead of all others.

In numerous portions of the country the Medical Faculty adopt these medicines in their practice, satisfied, from ample tests, that by their use they can more certainly combat DISEASE, IN ALL ITS FORMS. And not only do Physicians sanction and encourage their use, but the CLERGY of every denomination, attest their wonderful efficacy; and in numerous ways recommend them to the people of their charge.

THE LEGAL PROFESSION testify to the same thing, in short, the public at large hail the introduction of these medicines as a public blessing.

There are over TEN THOUSAND AGENCIES of the Company in the United States, which are not only profitable to the agents, but of vast benefit to the inhabitants. There should not be a single town, village, or hamlet, without its Greenberg Depot; and if this Bulletin is read where there is no agency, application should be made for one immediately.

Certificates, almost without number, are on file at the office of the Company, testifying to cures of the most astonishing kind; many of which have been examined by the following distinguished gentlemen: Rev. N. Bangs, D. D., Francis Hall Esq., Ex-Mayor Brady, all of New York.

The power of the Greenberg Medicines over all bilious complaints, no matter what their form or severity, is a matter of profound astonishment. Let all, therefore, who are thus afflicted, and who would cleanse the system, resort at once to the celebrated GREENBERG VEGETABLE PILLS AND HEALTH BITTERS. At all events let them call at some one of the agents and get a pamphlet gratis, which will fully explain the whole matter.

The General Agent for Missouri, and South part of Illinois, is E. K. WOODWARD, St. Louis, to whom applications for agencies may be addressed.

COLVER'S  
Patent Concave Beater Churn.

WE call the attention of the public to the article heading this advertisement, and invite the enterprising and curious to call and witness its operation. All advertisement in relation to this invention, to the hundreds who have seen it tested, is supererogation.

First. This Churn will produce butter, gathering it in a mass, from sweet milk, in five to ten minutes, and from cream prepared, as families usually prepare it, in three to five minutes.

Second. The utility of this invention is apparent, as better butter can be produced from sweet milk, or cream, than cream soured in the usual way; and by means of this Churn, a little girl or boy can perform, in five or ten minutes, what heretofore required the labor of a woman or man for one or two hours, and sometimes half a day.

Third. By simply turning a thumb-screw, the whole inside dasher is taken out, leaving nothing but the butter and milk in the plain wooden box.

Fourth. It is the cheapest Churn ever invented, as the simplicity of its construction (though embodying a great philosophical principle,) makes it but little to manufacture it.

Fifth. It is a common sense Churn, as all will admit who will examine it.

We are now offering the complete monopoly of this article in States and counties, which will insure certain and large profits and a speedy return of investments.

COLVER & MYERS, 32, Vine St., up stairs  
St. Louis, October 5, 1848.—31f.

Chill Fever, Dumb Ague, Intermittent Fever, and all the various forms of BILIOUS DISEASES.

This valuable medicine is undoubtedly the safest, surest and best remedy ever discovered for the cure of the above named diseases. It not only breaks the chill, but removes the cause from which the disease originates. Its operation is both general and specific.

While it acts generally upon the whole system, as a most powerful alterative, purifying the fluids, freeing the solids from all morbid secretions, and reinvigorating and bringing up all the vital energies to a standard of permanent health; it at the same time exerts a specific influence upon the liver, digestive organs and lymphatic and glandular system, exciting them to healthy activity, removing all morbid matter, equalizing the circulation, restoring their proper and necessary secretions, thus accomplishing a complete renovation from disease, and restoration to sound and permanent health.

It will be readily conceded by every intelligent mind that a Tonic Syrup composed of the most valuable ingredients, carefully selected from the Vegetable Kingdom, must possess far more potent properties for the complete eradication of the diseases for which it is especially prepared, than can possibly be compounded with the limited quantity usually administered in the form of Pills.

Those who are suffering with the prostrating AGUE and FEVERS common to the west and south—those whose constitutions have become enfeebled by the use of mercury, quinine, or other violent remedies, should resort at once to the use of this VALUABLE MEDICINE.

It has cured and will cure the most obstinate cases. Travelling with the circulation, it purges its healing current through every vein and artery of the human body. The whole animal economy is made to undergo a thorough radical change. Even the mind partakes of the healthful process, and life, that before appeared only a dreary waste, begins again to seem worth possessing.

Pamphlets respecting this valuable medicine, can be obtained of the agents gratis.

## CAUTION.

As there are many spurious preparations of similar name hawked about the country and sold on the reputation of the genuine

SMITH'S TONIC SYRUP, we therefore beg leave to caution the public against imposition, as we cannot hold ourselves responsible for the effects which may result from the use of spurious articles.
